

# Webster-pak® Sealing Mouse™

## Makes sealing a breeze

The **Sealing Mouse** is the ultimate solution for sealing your Webster-pak foil to the blister. With its ergonomic design, it delivers fast, accurate, and precise sealing, ensuring a perfect air and moisture-resistant seal every time. Users who rely on the Sealing Mouse daily absolutely love it – sealing has never been easier!

### KEY FEATURES

- **Three heat settings** for efficient and reliable foil sealing.
- A **PINK ergonomic handle**, designed for comfortable use, applies heat from the warming plate to the back of the foil.
- In just seconds, gentle pressure and heat securely bond the foil to the blister.
- The **BLUE Pressure Handle** is then used to instantly cool the foil against the blister, ensuring a flawless seal every time.

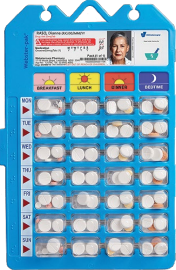

*Experience effortless sealing with the Sealing Mouse – precision and ease, perfected.*
